0.6 THz
1.0 THz
required: T^q, q = 1.09-1.18
most extra loss the H1 fit allows (a ≤ 1)
time shift of the tissue term, 0.061 ps
heating, Liebe (0-40 K)
heating, Liebe x2.3 (0-20 K)
water gain (0-16 %)
same tissue thicker (0-16 %)
ions in tissue water (0-18 S/m)
axoplasm conduction (0-46 S/m)
any node state, every extreme (116)
extra delay of the slice (rad)
extra loss of the slice (dB)
extra loss of the slice (dB)
